

DONE DEAL

In support of a very experienced food manufacturing CEO, Newport Partners led the search for both a company to acquire, and a select private equity firm to partner with. In less than 10 months, a confectionary manufacturing business that fit the project parameters was sourced, as well as a high-culture-fit private equity partner, and the transaction closed in June 2023.

We are now seeking add-on acquisitions in the confectionary and snack manufacturing sectors with EBITDA between \$500K - \$2M.
